

## **Robert Demaree, Director of Engineering**

### **Professional Experience**

Robert Demaree has seven years of industrial experience in the plastics and electronics industries. He has specialized in the development and scale-up of new products and technologies, including product test and qualification to industry standards of operation. His experience includes design and processing of plastic extrusions, material formulation, statistical process control and Experimental Design.

### **Education**

M.S., Materials Science and Engineering, Virginia Polytechnic Institute and State University, 1996

B.S., Mechanical Engineering, Virginia Polytechnic Institute and State University, 1993

### **Associations**

Robert has been an active member of the Society for Advancement of Process Engineering (SAMPE) and the Society of Plastics Engineers (SPE).

### **Publications:**

Proceedings of National Fiber Optic Engineers Conference, 1997

Proceedings of IPC Expo, April 2000

Proceedings of IPC Expo, April 2001

Circuitree Magazine, October 2001

PC Fab Magazine, 2000

Proceedings of the Surface Mount Technology Association

International Meeting, September 2002

### **Company Information**

Marson Energy provides a full line of generation services including plant construction, development, consulting and financing to industrial users, utilities and other clients. Marson Energy's turnkey power solutions have been implemented throughout the United States.
